

Name _____ Recording observations

Our Tower Garden®

Today's date is _____.

I observed a _____ plant.

This is what it looks like.

Word List

wide

narrow

smooth

bumpy

jagged

curly

The plant has _____

“Our Tower Garden®”

How to Use

Copy the journal page for students. Have each student write the date and the name of a plant growing in Tower Garden®. Ask the student to observe the plant closely and draw it. Then have the student refer to the word list as he or she writes a description of the plant. Instruct the student to store the completed paper in a folder. Repeat the activity throughout the growing cycle. Later, bind each student’s journal pages to create a garden observation log.
